## General Information

Report 712A calculates the amount of new growth within the entity from one tax year to the next.

New growth is adjusted for “growth” due to factoring orders, reappraisals or any other adjustments to existing assessed values and also by the annexations into or out of the entity.

### Actual New Growth

Actual new growth is the current year’s preliminary value adjusted for redevelopment tax increment plus or minus changes in value due to reappraisal, factoring and legislative changes, or court orders minus previous year’s taxable value adjusted for redevelopment tax increment.

### New Growth

New growth will be equal to actual new growth or net annexation value, based on the conditions for annexations. Please refer to State Tax Commission Rule R884-24P-24K.

## Instructions

### Column 1 – Taxing Entities

Enter the names of the taxing entities in the county. Each taxing entity should be listed and a separate calculation for new growth will be performed for each entity.

Enter the value for each entity from column 9 of Report 750. This number is the total year-end locally assessed and centrally assessed value adjusted by the RDA value. ### Column 3 – Current Year’s Adjusted Taxable Value

**Column 6 – Net Annexation Value**

Enter the amount from column 4 of Report 710.

**Column 7 – New Growth**
